Dear Mr. Threet:

On October 16, 2013, the Division of Water Resources (division) received your revised Comprehensive Nutrient Management Plan (CNMP), which had been submitted to the Tennessee Department of Agriculture (TDA). TDA reviewed your CNMP, which had been revised to include additional land and to update farm and crop management practices, and approved it on October 18, 2013. After receiving TDA's approval of your CNMP, the division reviewed your permit application and found that your farm had previously received permit coverage on September 1, 2011. The division has determined that revisions to your notice of coverage (NOC) are not necessary and it remains in effect. Please note that your permit coverage will expire on May 31, 2015. By copy of this letter the division is notifying you that your revised CNMP has been approved; you should now follow your revised CNMP and discontinue using any previous versions of your CNMP.

If you have questions, please contact the Cookeville Environmental Field Office at 1-888-891-TDEC; or, at this office, please contact Ms. Erin O'Brien at (615) 253-2245 or by E-mail at Erin.O'Brien@tn.gov.

Sincerely,

Brad Harris
Manager, Land-Based Systems
